

9:00 - 12:00 - FSDI 102 Session#2 Cohort 28

- Table tags: <table>, <tr>, <th>, <td>.
- Flex-box (justify-content, align-items, flex-direction)
 - it only affects the first level of children.
- Grid (column-gap, grid-template-column, row-gap)
 - it is like a table, we set the columns
- The next elements should be together:

```
selector{
width:50%;
margin-left:auto;
margin-right:auto;
}
```

- Responsive design (mobile first)

```
@media(min-width:768px){
selector{
... list of properties
}
}
```
