

9:00 - 12:00 - FSDI 101 Session #3 Cohort 28

▼ Event Notes

-
- fontawesome website to insert icons (you need the link from the kit and search the icon and insert the `<i>`). <https://fontawesome.com/icons>
 - emojiipedia to insert emojis as text <https://emojiipedia.org/world-map/>
 - Google fonts have a lot of fonts, suggestion: only select three styles. (<https://fonts.google.com/>)
 - use background-image: url () to insert image as background.
 - use div to group elements.
 - select specif elements like ***ol.projects***
 - select the children in an especific element ***nav.menu a***
